

# Kiertokapula - sorting instructions

More information [www.kiertokapula.fi](http://www.kiertokapula.fi)

## PACKAGING WASTE

Read more about recycling of packaging waste: [www.rinkiin.fi](http://www.rinkiin.fi).

### Carton packages

Rinse, flatten and pack inside each other.

Remove the plastic caps and lids and place them in plastic packaging waste.

YES

- cardboard boxes and corrugated cardboard
- carton packages for liquids, such as milk and juice cartons (also with aluminium lining)
- carton packages, such as dry food packages

- paper packets and paper bags
- pizza packages and egg cartons
- disposable cardboard plates and cups
- empty toilet paper and kitchen roll tubes

### Plastic packages

If necessary, rinse with cold water.

Remove the cap or lid from the rest of the package and place it separately in the collection.

YES

- plastic food packaging such as yoghurt pots and packaging for cold cuts, cheese and prepared food
- detergent, shampoo and soap packaging
- plastic bottles, cans and jars
- plastic bags and wrappings
- cellular plastic packaging

NO

- dirty packages
- PVC
- other plastic products such as toys or dishes

### Metal

If necessary, rinse with cold water.

Containers of dangerous goods are suitable for collection when they are empty and do not contain propellants.

YES

- food and beverage tin cans
- metal lids, caps and closures
- aluminum trays, foils and lids
- empty paint cans
- pots and pans (also ones made of teflon)
- cutlery and small metal tools for example nails and screws

NO

- items larger than the opening of the container, for example bicycle

### Glass packages

If necessary, rinse with cold water.

Remove the caps and lids and sort them by material.

YES

- glass bottles and jars

NO

- porcelain and ceramics
- glassware
- crystal and opal glass
- window glass and mirrors
- light bulbs and glass lamps

## PAPER

Paperinkeräys Ltd and Suomen Keräystuote Ltd are responsible of collecting paper.

Remove plastic covers. Do not tie paper materials together with twine or tape.

YES

- newspapers and magazines
- adverts and envelopes
- catalogs and books (remove hard covers > dry or mixed waste)
- copy paper and printed paper
- shredded paper

NO

- plastic or cardboard
- gift wrapping paper
- wet paper

## MUNICIPAL WASTE

### Biwaste

Pack biowaste carefully into a plastic or paper bag.

In Nurmijärvi use biodegradable plastic bag or paper bag.

YES

- fruit and vegetable peels
- fishbones and small bones
- coffee filter paper, coffee grounds and tea bags
- kitchen towels and paper napkins
- food waste
- eggshells

NO

- soil and garden waste
- liquid waste
- cat litter, poop bags and other pet droppings

### Mixed waste

Pack the waste to avoid containers becoming dirty. Please pack particularly well both glass and dusty waste.

Mixed waste without biowaste is called **drywaste**.

YES

- unusable textiles and shoes
- diapers and sanitary towels
- porcelain and ceramics
- drinking glasses and other glass containers
- window glass and mirrors
- book covers
- small amounts of soil, garden waste and brushwood
- flowers and houseplants

NO

- biowaste if it's collected or composted in housing estates

## DO NOT PUT IN WASTE BINS

Look the nearest collection point: [www.kierratys.info](http://www.kierratys.info).

### Hazardous waste

A product marked with a warning symbol is always sorted into hazardous waste.

- waste oil, oil filters and other oily waste
- accumulators, brake and cooler liquids
- paints, adhesives, varnishes and hardeners
- solvents and thinners
- strong cleaning agents
- hair spray, nail polish and perfumes
- batteries > return to any shop that sells them
- medicines > return to pharmacy

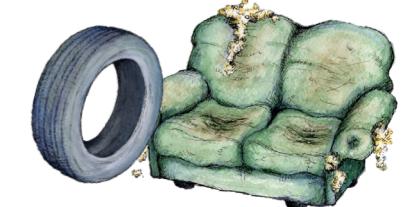

### Electronic waste and equipments

All appliances powered by electricity or batteries.

- lamps and fluorescent tubes
- small weee appliances such as coffee makers, fire alarms, light fixtures
- computers and peripherals
- large household appliances such as stoves and washing machines
- freezers and refrigerators

### Other waste

This kind of waste do not belong to property's waste bins, due to their size, quality or quantity.

- furniture and metal scrap
- cars and car tires
- bigger amounts of
  - soils and sand
  - garden waste and brushwood
  - renovation and construction waste
